

# ergotron®

professional  
grade

## *Champion movement and flexibility with Ergotron monitor arms*

Our professional-grade monitor arms move you forward with ergonomic, adaptable designs. Founder Harry Sweere helped establish industry mounting standards in 1982 that are still in use today, setting a foundation for continuous innovation defined by sustainability and quality.

### **LOAD TESTING**

We stack four times as much weight on each monitor arm than what we expect them to hold. It's all about keeping you and your technology safe.

### **CYCLE TESTING**

Our engineers adjust our monitor arms from the lowest to the highest position 10,000 times to ensure trouble-free adjustment for the long haul.

### **ADVANCED COMFORT AND ERGONOMICS**

Hunching over your desk, looking up at a screen way too high or typing at an awkward angle can all mean bad news for your neck, back and wrists. Personalizing your fit with our flexible monitor arms supports a feel-good workday.

### **CONSTANT FORCE™ TECHNOLOGY**

Patented Constant Force (CF) technology allows for easy adjustment and long-lasting dependability. However you lift, tilt or turn your monitor arm, you'll feel the difference.

10,000 cycle tests to support safe adjustments

Load-tested to 4X weight capacity

Extends 25" for collaboration and flexibility

Upgrades to a dual monitor arm with handle

Upgrades to a triple monitor arm

Supports 3 or more monitors on 1 base

Offers under and top mount c-clamp;

2-piece clamp and grommet mount versions

Includes Constant Force™ technology for easy movement

## ERGOTRON

Our professional-grade designs help you harness even more productivity, collaboration and comfort in your workday.
